HARLAN COMMUNITY ACADEMY

9652 South Michigan Avenue
Chicago, IL 60628

Harold Washington
Mayor City of Chicago

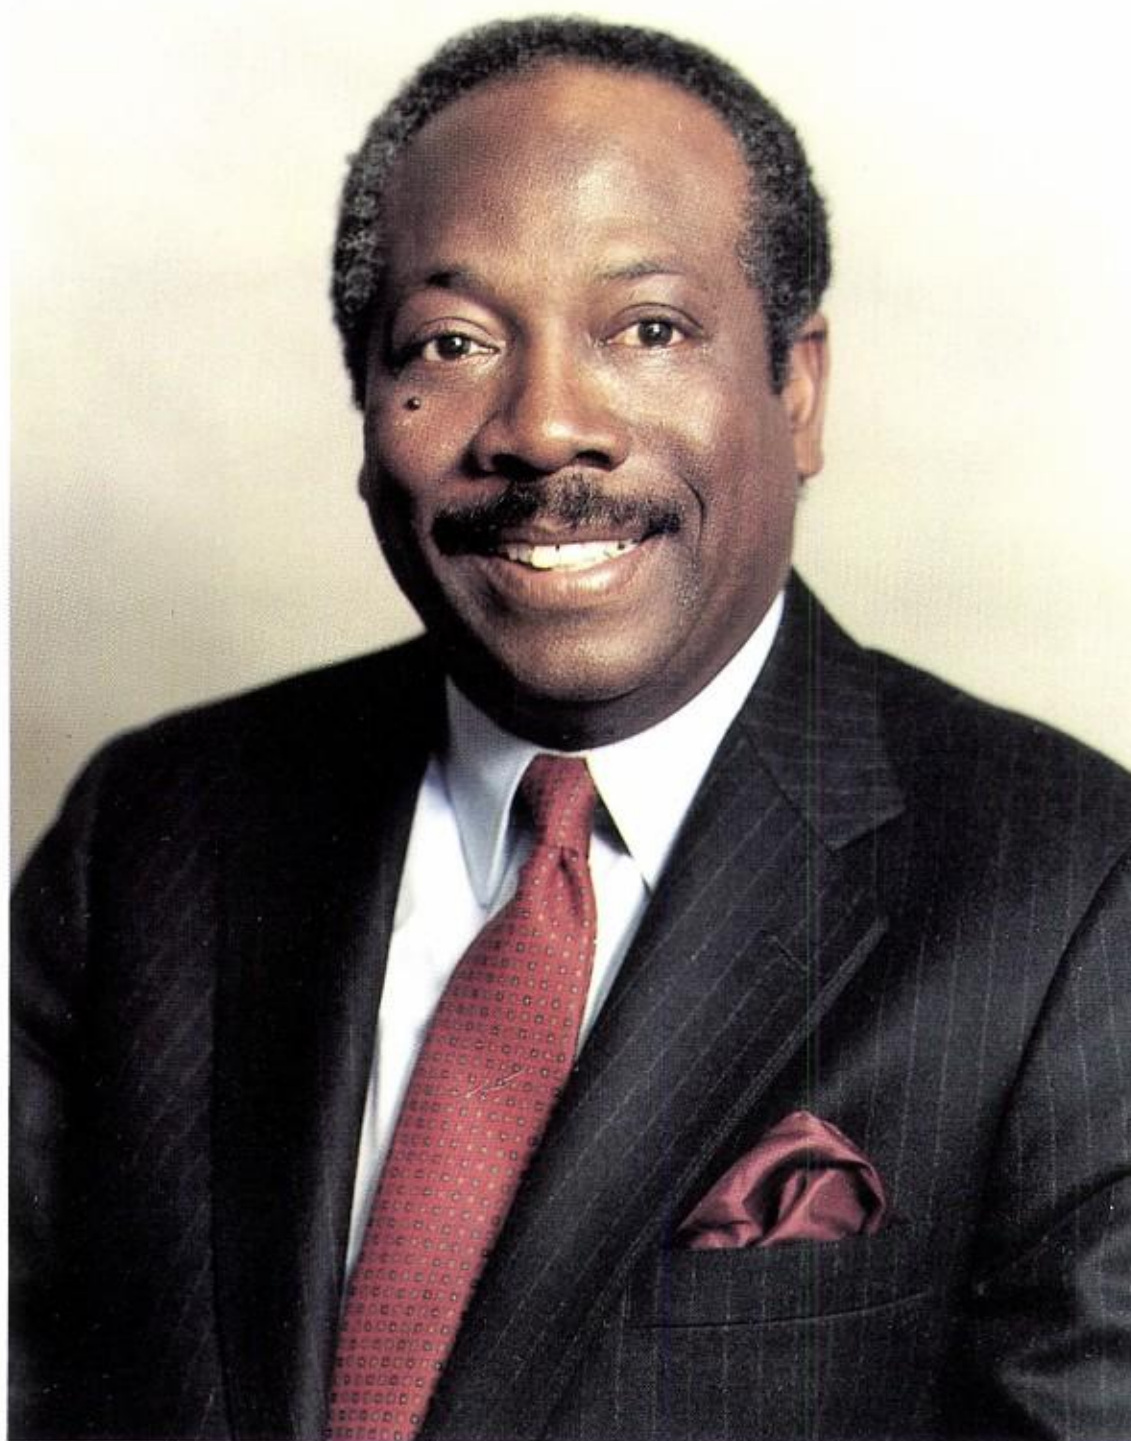

Greetings:

May I take this opportunity to commend the students and staff of Harlan Community High School on your outstanding contributions to the City of Chicago.

Harlan Community High School is the epitome of what the spirit of Chicago is all about.

I want to commend the staff for working so hard every day to keep the wheels of academia churning effectively, and for making a commitment to maintaining a healthy outlook on life for our youth. The investment you have made in time and energy is an investment in this city.

As the 1986-87 school year progresses, I encourage each student to continue to study hard. Education is not a privilege, but a right which should not be taken for granted. It is also a responsibility. A good education is the key to opportunities that will allow you to learn so much and to grow into responsible adulthood.

Dr. Manford Byrd, Jr.
General Superintendent of Chicago Public Schools

Greetings:

Chronicling the special highlights of the year is the purpose of a school yearbook. Its words and pictures serve as mementos of all the days and weeks spent acquiring knowledge academically and socially, facing and solving problems, and sharing innumerable growth experiences.

I congratulate the staff and students on producing this yearbook. It is a fine testament to a school which promotes excellence in all areas and is a prologue for happy and fulfilling post-graduate years.

It is my hope that every student of Harlan Community Academy keep and cherish this publication and continue to strive for the best.

Dr. Reginald V. Brown
District Superintendent, High School District-South

Dear Harlan Falcons:

It is indeed a pleasure for me to share with you your many school activities through this year's yearbook.

Harlan High School has become an academy. Under the leadership of Mrs. Mary Robinson and her capable staff, I am sure that you will endeavor to become one of Chicago's outstanding schools. You, upon graduation, will become a part of the history of future generations, and I am certain that you will stack up very favorably with those future generations.

You will, however, in order to meet the many future challenges, have to be equipped with the proper attitude and positive approach to life that will enable you to meet the many challenges that will be presented to you. I am certain that you will be able to overcome each of them.

Good luck!!!!

Mary L. Robinson
Principal

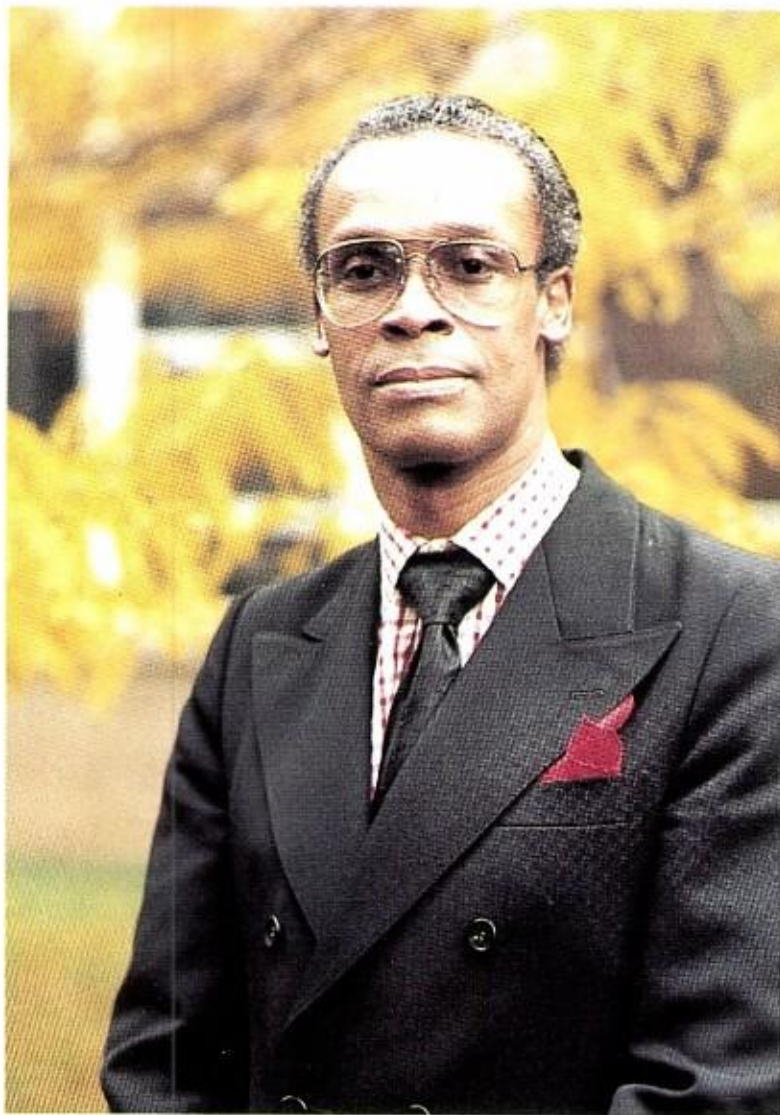

Dear Graduates:

You are about to complete the second phase of your educational development. Your high school record will play a tremendous role in determining the direction of your third phase — college and/or the world of work. Were your accomplishments these last four years a reflection of your true capabilities?

The third phase presents a new challenge. It will require self-motivation to perform well, self-discipline to always be properly prepared, and self-direction to be where you are suppose to be when you are suppose to be there. The world of work and/or college will demand a self-awareness of the need to excell simply because you are capable of excelling. Don't fall into the "get by" syndrome because that is the failure syndrome. It is not enough to just get by when you are capable of more. To do so is to be untrue to your parents, your teachers, and, most importantly, to yourselves.

Remember, you are the one who will gain the most if you decide now to pursue the road to excellence rather than the path to mediocrity.

Knowledge is the key which opens the door to freedom/self-determination and removes the shackles of mental/social/economic slavery.

NHS INDUCTION

The National Honor Society held its induction ceremonies February 26, 1987. This society bestows honor upon those students who have not only achieved honors in academics, but also it honors those who have shown outstanding leadership, character, and service. After a candlelight procession and ceremonies, a gracious reception followed in the Social Room.

Our Thoughts of You, Harlan High

We have come this far by faith,
 Leaning on our knowledge to carry us on our way.
 Although we have a long way to go,
 We're going to strive and learn a lot more,
 But as time goes by,
 Our thoughts of you will never die,
 Our thoughts of you, Harlan High.
 Chorus:
 So long, Harlan High.
 It's time to say good-bye.
 Our thoughts of you will never die,
 Our thoughts of you, Harlan High.

You will always be in our memories,
 And we'll look forward and upwardly,
 But as time goes by,
 Our thoughts of you will never die,
 Our thoughts of you, Harlan High.
 Chorus:
 So long, Harlan High.
 It's time to say good-bye.
 Our thoughts of you will never die,
 Our thoughts of you, Harlan High.
 A dream come true, Harlan High.

FOR MALES ONLY

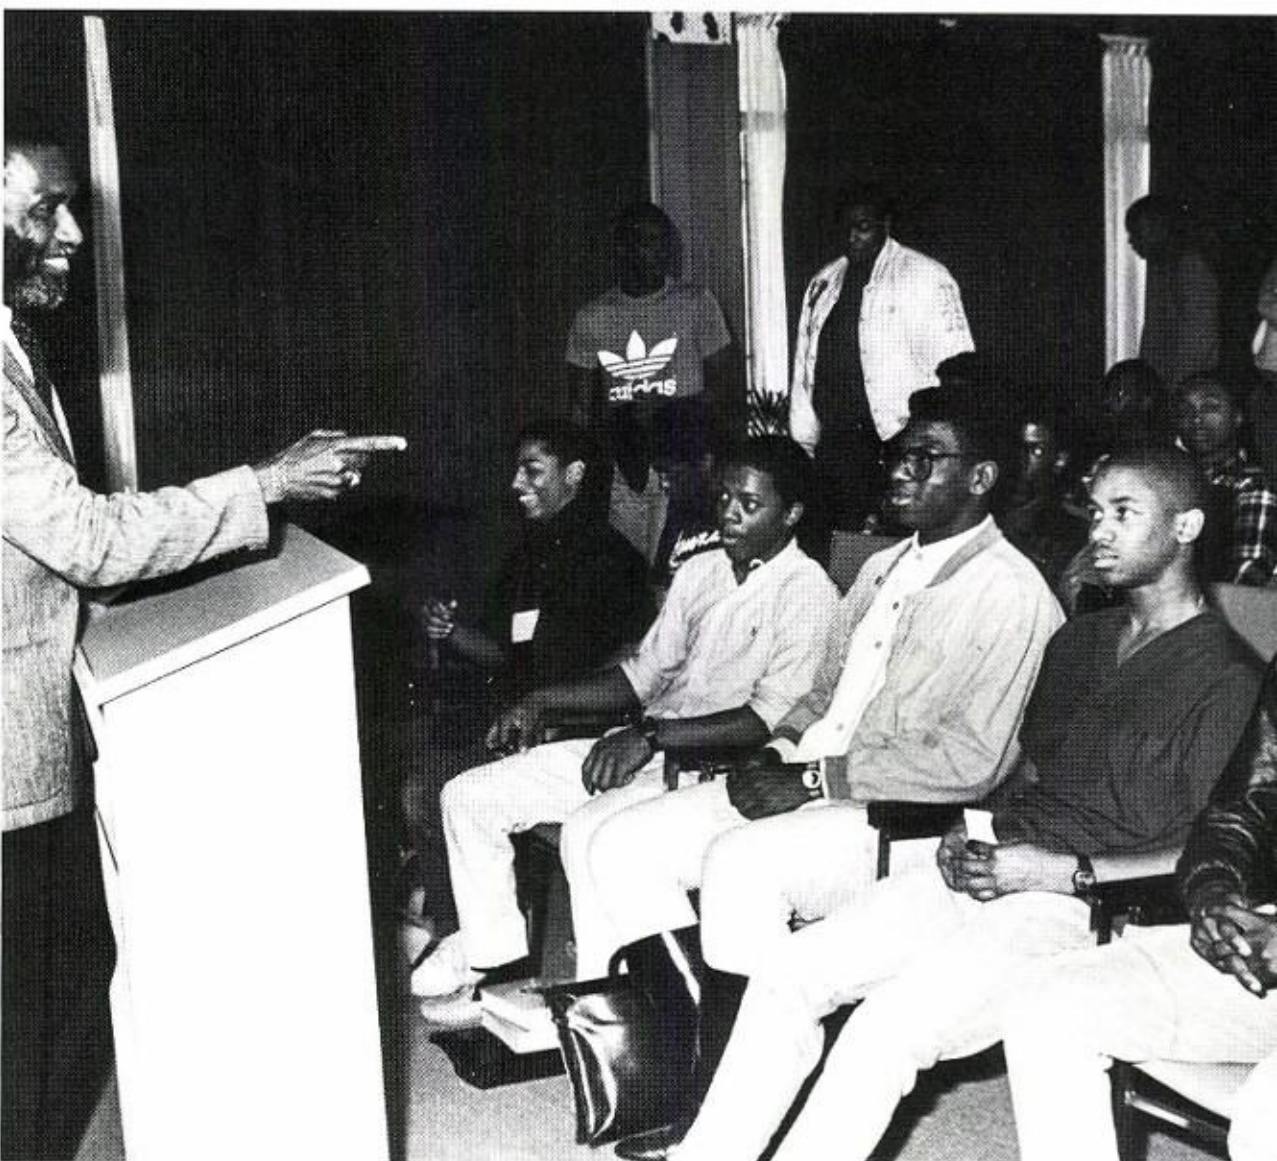

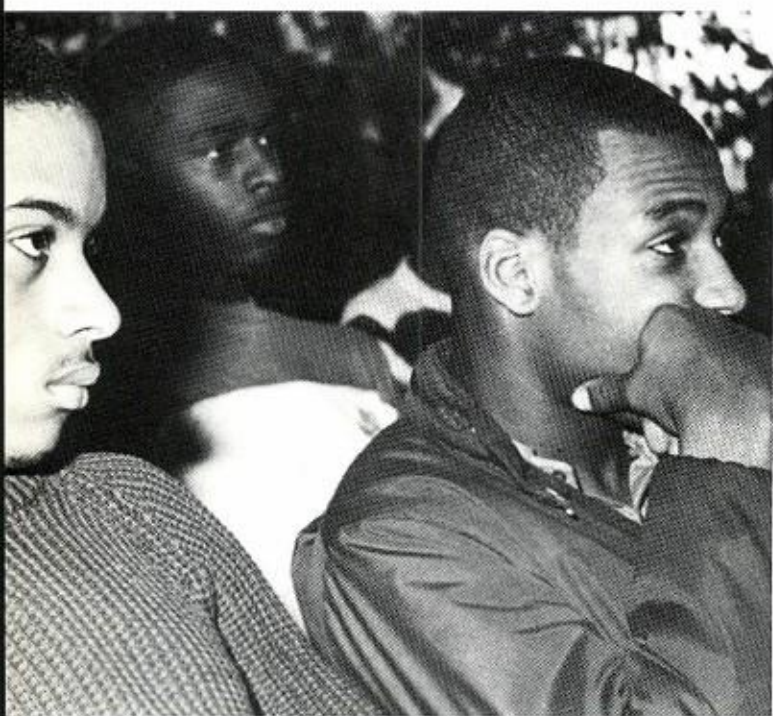

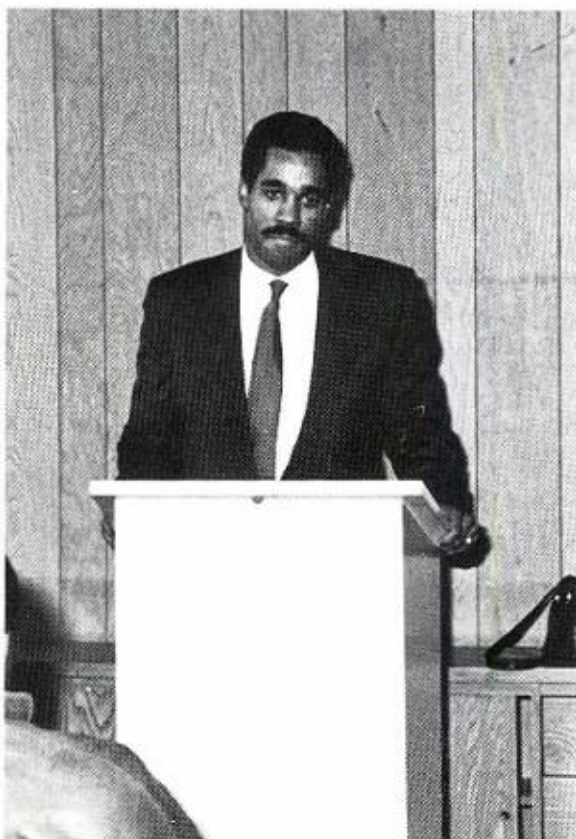

Harlan Academy was proud to highlight a new program—"For Males Only". Conceived with the idea of motivating young men to set positive goals and of helping them to plan the necessary routes to accomplish these goals, "For Males Only" has had a positive influence upon our male population. The program, under the guidance of Mrs. Barbara Edwards of the Counseling department, has had three outstanding speakers. The first session was conducted by Mr. Benjamin Duster IV, a former Harlanite (Class of '77). He holds a Masters of Business Administration from Harvard and a Doctorate of Jurisprudence from Yale. Rev. Wendell Anthony of Detroit, Michigan, who was guest speaker of the second session, is also a field representative of Holt, Reinhart, and Winston Publishing Company. Chicago's own Rev. Henry O. Hardy, pastor of the Cosmopolitan Community Church, was guest speaker of session III. Rev. Hardy is an activist in civic and community affairs around the city.

... THE NEXT PHASE

On Wednesday, October 29, 1986, Harlan Community Academy, in cooperation with the P.T.A. and under the direction of Mrs. Opal Chiles, presented a College Fair for juniors, seniors, and their parents. This annual program was divided into two sessions. The first, an auditorium session, was a presentation on financial aid. The second session afforded students an opportunity to visit representatives from various colleges and the armed services. Participants were encouraged to ask questions about admission requirements, financial aid, and costs.

PASSING ON THE GIFT OF LIFE

The annual Red Cross Blood Drive, held on Wednesday, November 5, 1986, and sponsored by Mrs. Dorothy Ritchie, was another successful endeavor. Students and faculty worked with members of the Red Cross to register donors and to donate blood. Of the thirty-six persons who reported to the health center, twenty-four were qualified to donate blood to replenish the Red Cross Blood Bank.

S. L. E. SEMINAR

On Thursday, October 23, 1986, Harlan Academy began its monthly medical seminars. Dr. Max Harris of West Suburban Hospital lectured and showed slides on Systemic Lupus Erythematosus. S.L.E., sometimes referred to as simply "lupus", is a blood disorder which strikes people of all ages, races, and both sexes. Symptoms of the disorder are arthritis, fatigue, facial rashes, and swollen glands and joints.

HARLAN'S HALL OF FAME

Harlan's Hall of Fame is a special recognition for those seniors who have excelled in various areas or who have given unselfishly of themselves to various organizations or activities. Students were selected from the categories of leadership, service, athletic involvement, and creativity or special talent in the fine arts. This year's inductees into the Hall of Fame were Artis Culverson - Outstanding Athletic Involvement, Reginald Dortch - Outstanding Service, Evette Frazier - Outstanding Scholarship, Karen Gildart - Outstanding Leadership and Service, Lisa Hogan - Outstanding Creativity, and Yvonne Sutherland - Outstanding Creativity.

SCIENCE FAIR

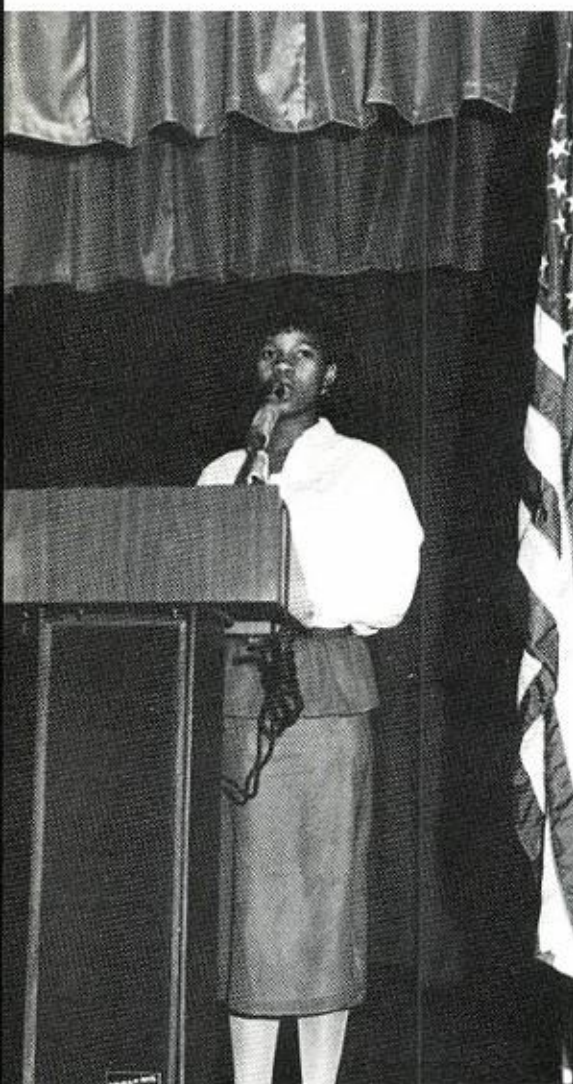

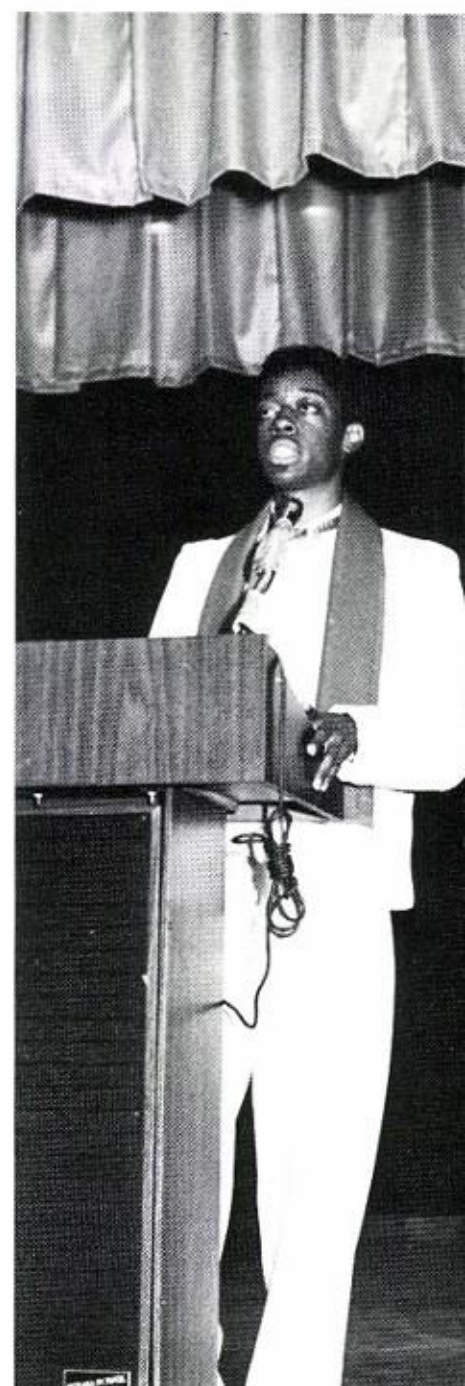

Each year students all over the city of Chicago participate in local science fairs. Winners of the local contests go on to represent their schools at the district level. This year Harlan sent five students to the District 33 Science Fair held at Chicago State University. The students were Eric Brown (The Effect of Microbe on Decomposed Garbage"), Marvin Ellis ("Nuclear Science"), Racquel Milliner ("How Sound Effects Plants"), Albert Parker ("The Effect of Crack on the Nervous and Circulatory Systems"), and Milton Walden ("The Effect of Material and Design on Airplane Flight"). Eric Brown and Racquel Milliner were winners at the district level and will go on to represent Harlan Academy at the City-Wide Science Fair at the Museum of Science and Industry in April.

The Harlan faculty and staff were much loved on this day. As part of the Black History Month celebration, the Student Council sponsored an Appreciation Breakfast and Assembly. Not only were teachers and staff treated to a delicious breakfast with royal treatment, but also they were honored with an assembly which included individual presentations of certificates. FALCON PRIDE IS HARD TO HIDE

The number one factor needed to build a winning program is discipline. Without it, there is nothing. Before suiting up and going on the diamond, an athlete must be willing to be coached, to take constructive criticism, and to make some sacrifices on behalf of the team.

Discipline cannot be sacrificed for athletic ability. Discipline plus self-control makes a team. A team member is also a member of another family. Everything that is done is done as one. Learning to lose is equally as important as learning to win. The two cannot be separated.

The end result, regardless of team record, is shaping a group of young men into responsible adults.

Coach Turman plans strategy.

The objective of the Harlan Lady Falcons Basketball team is to develop good leadership, good sportsmanship, self-discipline, self-awareness, and self-motivation. The '86-'87 season was off to a great start, opening the season with three victories to become champions of the H.E.P. Tournament. The team won two out of three games in the Mayor's Tournament but lost to defending city champs, Marshall. The Lady Falcons finished second in the Red South section and advanced to the semi-finals of the city playoffs with a record of 11-3 and an overall record of 22-5.

POM-PONS

Being a member of the Pom-Pon squad can be a valued experience for any young lady. It requires the ability to choreograph dance routines which are performed during athletic events. These routines entertain and motivate the crowd.

Good physical condition and coordination plus good grades are a must. Since routines are performed as a group, precision is essential. Personalities must be "A-Okay". It is absolutely necessary that everyone works together.

In its only competition of the year, the squad finished in fifth place. In previous years, the squad has never placed below third place. With this in mind, the squad is in the process of rebuilding, and the squad is looking forward to next year.

Bustin' loose

Coach Moffett and Ass't. Coach White survey game.

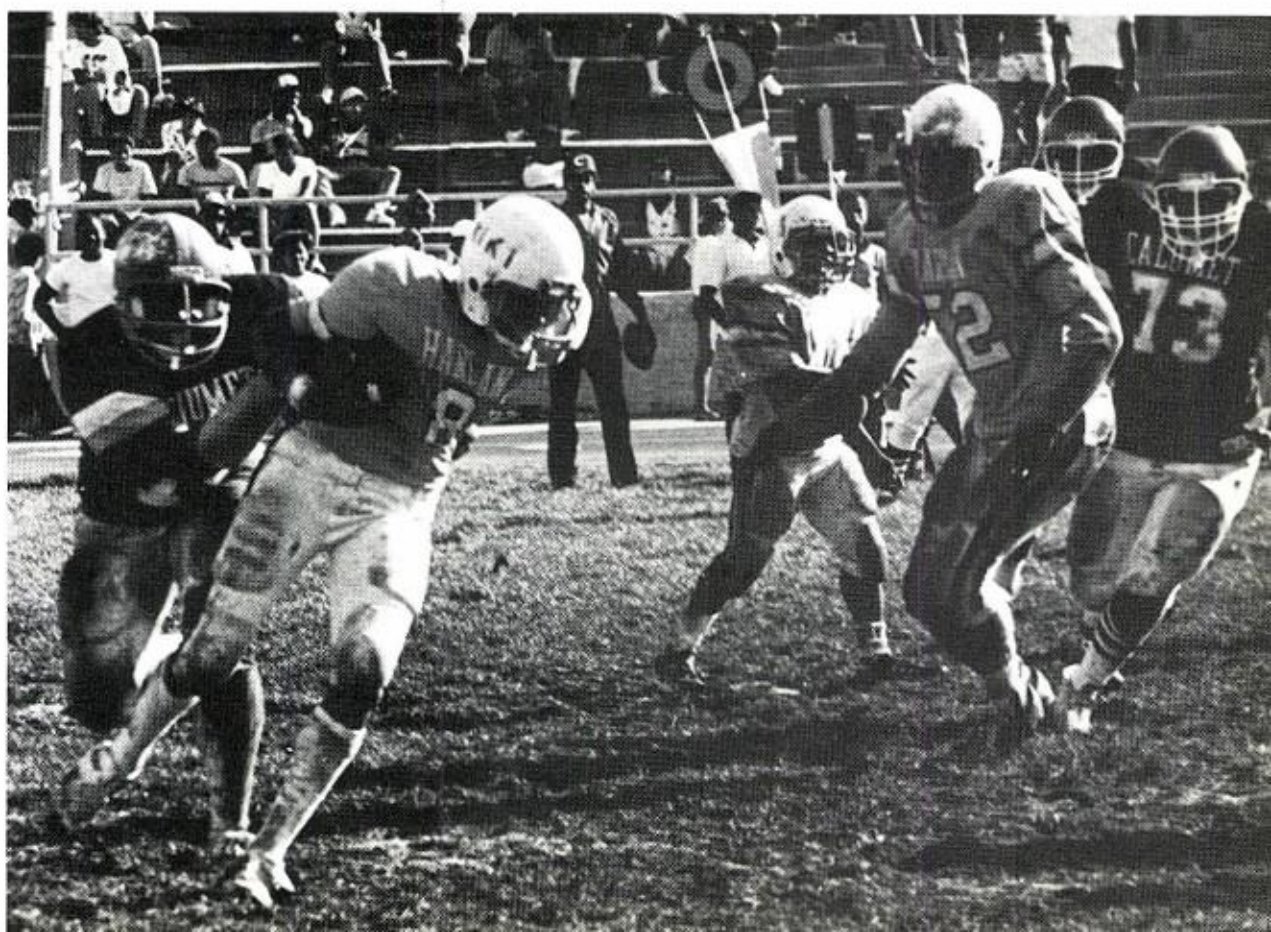

Who says McMahon was the "punky" QB?

The Harlan football program was in a rebuilding year in '86. Many of the players were playing for the first time, and there were only four returning starting players from the previous season. The lack of experience showed in most games. Although the scores did not reflect it, the team played hard. As the season moved on, the team played better, and the Falcons were able to win a game against Englewood.

Next year shows the promise of more experienced players returning. The Frosh-Soph team had a good season and will send its best players up to Varsity. This factor combined with leadership from the returning players should result in a good season for '87-'88.

BOYS TRACK

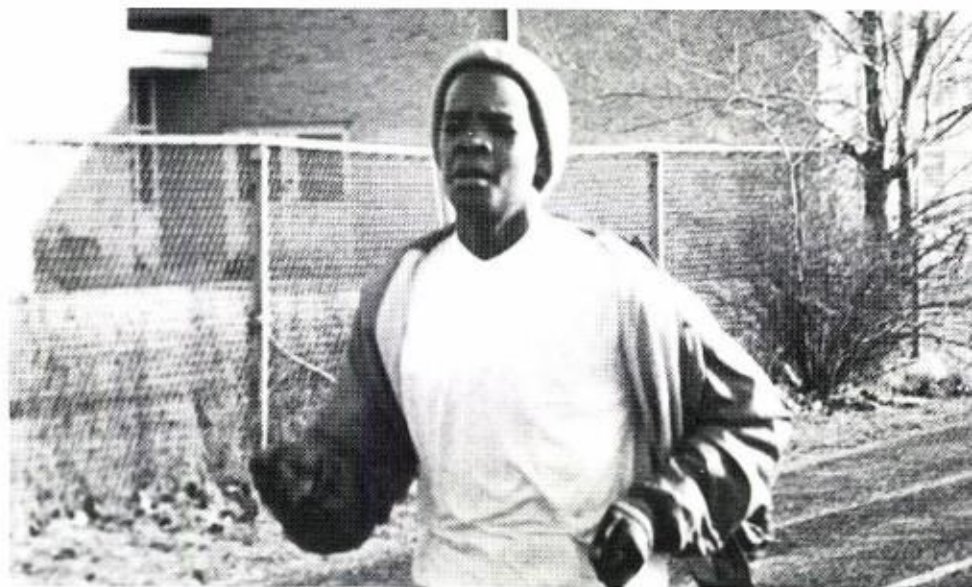

▲1987 Boys' Track Team at work

No Pain, No Gain►

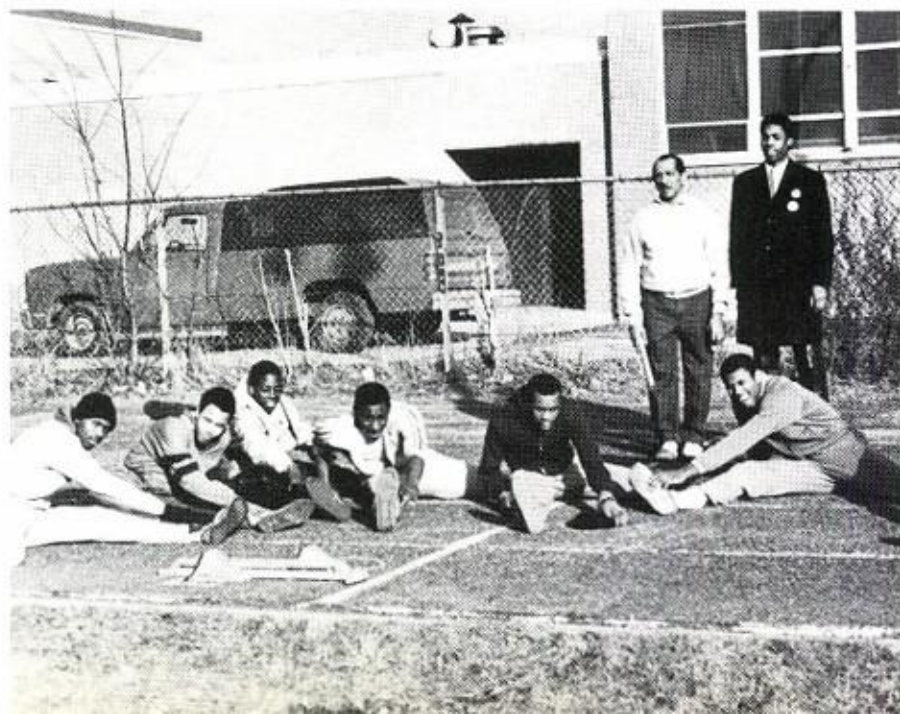

The Harlan Track team is celebrating its twentieth anniversary since winning the State Track and Field Championship. Harlan was the last Chicago Public High School to accomplish such a feat. This year's team is trying hard to follow this tradition. These young men have grown and continue to grow, seeing their dreams and goals turn into realities, watching the fu-

ture unfold. Whatever the future holds, it is assured that these fine young men will be a part of it.

For the first time in five years, Harlan has had a boys' swim team. Though small in number, the team has a lot of heart. Like any new program, the swim team will need time to organize and get students involved. With six young men returning next year, and with the hope of more young men becoming involved with the team, the swim team anticipates fitting right into the great athletic program that Harlan offers its students. The boys' swim team, though in its infancy, plans to be around for years to come.

The Harlan Modern Dance class was reactivated in September, 1986, after ten years. The major objective of the class includes the learning of the aesthetic value of the dance as it relates to rhythmic movement with musical accompaniment. Because of inexperience, programs have been limited this year, however, the modern dance has performed at a Black History assembly and is preparing for a combined dance and synchronized swim concert later in the school year. The class is instructed and sponsored by Mrs. C. H. Davis.

The 1986-87 basketball season revolved around four basic objectives. These objectives were 1. to generate a positive mental attitude, 2. to instill a need for a legacy of service to the community, 3. to develop the need to keep life in proper perspective, and 4. to advance past the first round of the city play-offs. Through hard work and team effort, the Falcons were able to reach these objectives. Not only did the team have the most successful season of the past four years, but also the team advance beyond the first round of the play-offs, losing a hard fought game to Simeon. The Harlan Falcons have proven that a goal-oriented team can meet with success.

With so few members, the team was unable to win any meets, however, many of them won first or second place in some of the individual competitions in which they swam. The team is eagerly awaiting their spring season of synchronized swimming and their competitive season in the fall.

The five "mighty" Harlan cheerleaders exemplify good physical conditioning and coordination and solid academic scholarship. It is a small but good squad which has not yet realized its wealth of potential. While other squads had six or more girls, the Harlan cheerleaders, with only four cheerleaders, finished fifth place in this year's only competition. After cheerleading camp this summer, the squad is looking forward to bigger and better things next year.
